

## Why choose Manstone?

### Easy Maintenance

For years, Manstone has been known as the *"The Superior Alternative to Tile."*

Tile grout is highly likely to fail over time, requires frequent sealing, and is extremely hard to clean.

Manstone's solid wall panels and shower bases eliminate grout that can leak and create water damage and unhealthy mold growth. Our panels never need to be sealed, are non-porous, and stain-resistant. All materials clean easily with any regular non-abrasive bathroom cleaning product – no grout to scrub ever!

### Custom Products Made Locally

Manstone is locally owned and has been in business since 1972! The majority of our products are made in Colorado Springs in our own manufacturing facility. We have an excellent and lasting reputation with our customers.

### Professional Installation and Other Valuable Services

Manstone offers high-quality and professional installation services. We also provide turn-key services including demolition, framing, plumbing, electrical, flooring and other remodeling services through established partnerships with reputable general contractors, licensed plumbers, and electricians.

### Affordable Luxury - Amazing Warranty

Manstone's products will add great value and appeal to your home at an affordable price. Manstone offers an industry-leading **10-year residential warranty on our installed engineered marble and granite products!** And as always, we offer free local estimates, so call or visit us in our showroom today!

# Manstone's Engineered Marble and Engineered Granite Products

## Vanity Tops

Manstone's engineered marble and engineered granite vanity tops offer beauty, versatility and easy maintenance. Each top is custom manufactured to allow numerous options, which include: various lengths and widths of tops and backsplashes, different styles and colors of integral bowls, flexibility of bowl locations, cutouts for drop-in, undermount, and vessel bowls, as well as custom shapes and sizes.

Wave

## Shower/Tub Surrounds & Shower Bases

Manstone's engineered marble and engineered granite bathtub and shower surrounds are available in custom sizes designed to fit any application. Our panels are tough, durable, and have a non-porous surface that is easy to care for — a beautiful and long-lasting affordable choice for both residential and commercial applications. Our large surround panels eliminate unsightly grout lines and leaky joints.

Manstone shower panels are also perfect for use in steam showers. With minimal seams, the ability to cover the ceiling, and unmatched durability in such high heat applications, you can enjoy your steam shower with the peace of mind that it will last for years to come.

Custom shower bases are also available in a variety of sizes and configurations. These include neo-angle, multi-angle, roll-in, non-standard drain locations, and bases up to 60" x 96". Our bases feature a textured, slip-resistant, non-porous, and stain-resistant surface.

## Bathtubs & Whirlpools

Manstone produces standard, soaking, and oval bathtubs to allow total flexibility for your bathroom design. All bathtubs are solid engineered marble or engineered granite and can be manufactured in colors to coordinate with wall panels and vanity tops. Whirlpool systems can also be added to all bathtubs to provide a relaxing escape from the stress of your daily activities. Each system is installed and tested and comes complete with a high pressure pump, pneumatic on/off switch and either six or eight jets.
